

Thermory's thermally stabilised timbers offer a range of natural or pre-finished, ready to install, cladding and lining solutions. Featuring spruce and pine ranges that are responsibly sourced from sustainably grown plantation timbers. These timbers are thermally modified using heat and steam, to produce a durable, high performing product range that carries a Class 1 or Class 2 durability rating to perform for decades in Australian conditions.

Thermory modifies the timber for increased durability and dimensional stability in a range of natural and prefinished, ready to install exterior cladding and interior lining solutions.

Ash decking Intense: Quick Deck Maxi D4

Thermory® QuickDeck is a unique modular, easy to install decking system that's specifically designed to lay over concrete, creating roof decks or optimising a balcony space. QuickDeck requires no substructure, simply connect the decking timbers using the weatherproof support system, to bring the outdoors in. QuickDeck timbers are intensely modified to deliver unrivalled resilience and stability with a Class 1 durability rating. Available for Special Order in Ash for a knot free, deep timber tone in a smooth finish.

Texture

Smooth Ash

Grade

Class 1 Durability.
Thermally Stabilised Timber.

Colour

Deep chocolatey brown

Board Lengths

1800mm

Size (mm)

95 x 32

D4 Decking & Screening Profiles:

D4 Profile

- 116x20 (decking)
- 68x42 (screening)
- 42x42 (screening)

Corner thermo - spruce CP3

One universal profile for indoor and outdoor usage. Boards with straight-cut ends can be installed without exposing the endgrain.

CLASS 1

Durability
Improved Durability and rot resistance

Stability
Enhanced dimensional stability in changing weather conditions

Chemical-Free
Thermal modification process is entirely natural
